

HAVERFORD WOMEN'S SOCCER

Fall, 2007, Issue 1

COACH'S CORNER

The season is finally underway, and after a hard preseason, filled with rain, heat, and exhaustion, our girls made it through. As the new coach, I must say it has been a pleasure getting to know the team and learning everyone's personality. Not only do we have strong players on our roster, but even more important, we have great people on our team. Everyone has something to offer--whether it's humor, effort, leadership or passion for the game, it is evident to me how much each member contributes to the foundation of this team. We have girls that come from all over the country who bring a unique style of play and personality. Each day I try to remind the girls how fortunate they are to play for Haverford. It doesn't get much better than playing the sport you love, representing your school and being with your best friends on a daily basis. As the season begins, I look forward to what lies ahead. The Fords are ready to go...

See you on the field,
Coach

BRODOVSKY'S BLOG

September 2007- The start of soccer season is always a bittersweet thing as it means the end of another summer and those carefree, lazy days. But on the other hand it is also the time for soccer preseason and the excitement that comes with the start of a new season where everyone is undefeated and anyone can win a championship. Getting reacquainted with players, coaches and staff whom I have not seen for a while is always great and catching up on where their lives are taking them.

This September at Haverford has been no different as the promise of a new season opens up for us this year. Having seen our players in one of the wettest and coldest preseasons ever, I am very excited for the season coming up and how our team will fare. We have a solid core of upper classmen and the freshmen have shown that they are more than capable of stepping in when called upon. In our first tournament games, we showed lots of character in rising up to meet the challenges that Arcadia and Lynchburg posed and our trip out West to California should also be an outstanding test not only of playing ability but also our adaptability as well. Once we get through our challenging pre-conference schedule, we should have a good idea of the team's character and their ability to deal with adversity and high level competition. This can only serve to make us that much more competitive in the conference, which had us pegged to finish seventh and out of the playoffs. I feel confident that if we continue to play as well as we are capable and put forth a 100% effort every game, making the playoffs should be no problem.

I am looking forward to a terrific season---Jeremy Brodovsky
