

**MSP SUMMER RESEARCH FELLOWSHIP
IN NATURAL SCIENCES
Due by 1st day of Spring Break**

Through a grant from the Howard Hughes Medical Institute, we are offering 15 paid research positions in the natural sciences over the summer. You can work with a faculty member here at Haverford, with a scientist at another lab in Philadelphia or closer to your home. We are providing stipends (\$380 a week with a maximum of 10 weeks), but we do not pay for travel to a different city. Freshmen have priority for these summer research funds, but sophomores and juniors may also apply. Once you have identified a suitable position, please complete both pages of the following form to apply for the stipend. Please contact me if you have any questions (610-896-1199; jtecosky@haverford.edu). You may email your completed application, or drop it off at my office (Hilles 207e).
