

**Haverford College**  
**Center for Peace and Global Citizenship (CPGC)**  
**2020 Summer Fellows**

During the pandemic, nearly 60 Bi-Co students have worked with off-campus organizations, CPGC staff, and faculty and staff partners across the Bi-Co to re-orient their summer internships toward remote and online coordination. With a range of nonprofit and social action partners, students will be supporting data analysis, writing, connecting with people who need support services online, and more. Locations listed below reflect the primary site(s) of the organizational activities, while fellows are working remotely.
