

A Center for Peace & Global Citizenship Fellowship with

The Haverfarm

The Haverfarm summer internship focuses on agricultural, academic, and outreach activities related to maintaining the farm and sharing food and knowledge with the community. This internship provides students the opportunity to conduct research on sustainable agriculture while gaining practical experience according to their interests. The intern will work together with the Farm Fellow to operate the farm, organize volunteers, and host visits from local camps and schools. Students enrolled in Environmental Studies courses are encouraged to apply.

CPGC and the Haverfarm co-sponsor summer internships as part of a year-long fellowship program (more info below and on CPGC's website).
