

CLINIC

AND

OFFICE HOURS

A QUICK RUN DOWN

Clinic is run by **students** who have previously taken the class.

The TAs at Clinic have the answer sheets for the **problem sets**, so Clinic is a great place to go for problem set questions.

Clinic is also a great place to **collaborate with other students** in the class!

If you are interested in being a TA yourself, visit the CCPA job board a few weeks before the beginning of the semester to apply!

Office hours are run by the **professor** who is teaching the course.

The professors can be great for helping you understand **concepts** from the **textbook** or from **class** (lecture or group work)

You can typically go to office hours alone or in a group. Also, if you can't make the stated times, feel free to email the prof to find a time that works for you!

You can also go to office hours to discuss topics outside the material, e.g. choosing classes, career paths, graduate school, research, etc.
