

# Beyond Haverford

Ileana Garcia '08

As the Franklin Community Development Corporation commercial corridor manager, Garcia works to increase small business development throughout Philadelphia.

The opportunity to manage your own learning, collaborate with faculty, and connect knowledge across disciplines builds a framework that you'll use forever. Whether you're destined for graduate or medical school, entrepreneurship or the arts, the business or banking realms, or elsewhere in the world at large, you'll always find yourself applying the unique academic and social skills you cultivate at Haverford.

The Center for Career and Professional Advising (CCPA) helps you explore and prepare for meaningful jobs, careers, and post-graduate experiences:

82%

of the overall student body engages with the CCPA

88% First-Years  
77% Sophomores  
72% Juniors  
89% Seniors

160

college-sponsored internships

65

on-campus employer info sessions

## PROFESSIONAL ADVISING

Advising focuses on professional development, communicating in professional settings, discussing career options, and building confidence in networking and developing relationships, especially with Haverford's dedicated and accomplished alumni and potential mentors. Students are guided to recognize and articulate the excellent analytical and communication skills, specialized knowledge, and remarkable leadership experience they develop at Haverford.

## JOB AND INTERNSHIP SEARCH

The CCPA works with employers, maintains job boards, and hosts and participates in recruiting days, job fairs, and other events to help students connect with professionals in their desired fields. The CCPA assists students with finding and securing internships, externships, and post-graduate jobs and opportunities.

Students can also come to the CCPA for guidance and resources to help them craft polished and professional cover letters, resumes, and correspondence.

## APPLYING TO GRADUATE SCHOOL

Advisors assist students in navigating the application process for graduate and other professional schools. Students interested in pursuing Ph.D. programs also receive guidance from Haverford faculty in their selected discipline. Haverford has a dedicated pre-health advisor as well as a pre-law advisor; they are housed at the CCPA.

## NETWORKING

The CCPA hosts and participates in many networking events throughout the year and provides students with guidance to help them successfully utilize the many resources available.

## Lifelong Connections

Thousands of Haverford alumni are eager to help you make your next move. Active volunteers are available to offer career support, advice, and guidance; much of this happens through a variety of Haverford-affiliated groups, including:

- Finance Network
- Public Health Network
- LGBTQ+ Network
- Multicultural Alumni Action Group
- Haverford Lawyers Network
- Young Alumni Advisory Group
- Athletics Alumni Network

# Class of 2016

Members of the Class of 2016 were surveyed at graduation and over the course of the following six months. Additional post-baccalaureate activity data was incorporated from College and social media sources. 97% of the Class of 2016 are reflected in the following data presentations.

- **60% EMPLOYED**
- **25% GRADUATE SCHOOL**
- **6% SEEKING EMPLOYMENT**
- **6% FELLOWSHIP**
- **3% VOLUNTEERING/TRAVEL/OTHER**

For more stories about what Fords will be doing after graduation, check out the Haverblog series, "Where They're Headed," at [hav.to/wth](http://hav.to/wth)

70% plan to attend graduate school within five years of graduation

**GABE RYBECK '16**

**Major:** Computer Science and Economics

**Concentration:** Mathematical Economics

**Job:** Booz Allen Hamilton, a strategy and technology consulting firm in the greater Washington D.C. area, employs Rybeck on its NexGen Analytics and Data Science team.

**Bona fides:** Rybeck was a campus tour guide, Ultimate Frisbee player, and member of the Lamie Ducks, the ice hockey club team. He landed his job thanks to the work he did for his senior thesis, which spanned economics and computer science and centered on price discrimination against certain buyers in the online marketplace.

**EMILY BERLIN '16**

**Major:** Philosophy

**Minors:** Mathematics and French and Francophone Studies

**Job:** Berlin combined her love of fashion with a desire to employ strategic thinking and is working as a senior analyst for TJX, which operates popular brands such as TJMaxx, Homegoods, and Marshalls.

**Bona fides:** Berlin was named a College Squash Association Scholar Athlete in her senior year at Haverford. The Summer after her junior year, the Center for Career and Professional Advising helped her land an internship with a women's shoe company, where she gained valuable experience in the industry and made professional connections.

**JAY GARCIA '16**

**Major:** Biology

**Job:** Thanks to a Fulbright U.S. Student Award, Garcia spent last year working in Groningen, Holland, in the lab of Ellen Nollen, who uses *C. elegans* to study Huntington's disease. This year, he will attend medical school at the University of Pennsylvania.

**Bona fides:** Garcia played rugby and served as co-head of Street Outreach, a group that makes and delivers food to Philadelphia's homeless. He was also a part of the inaugural class of Chesick Scholars, a program that supports exceptional students from underrepresented or under-resourced backgrounds throughout their time at college.
