The Haverford College Arboretum Association is open every day of the year for public appreciation and study. The area, which currently contains 180 species, will take approximately 100 years to mature. The purpose of the Haverford College Arboretum Association is to offer beauty, meaning, relaxation, and enjoyment to the members and visitors. The History of the Haverford College Arboretum Association. The Haverford College Arboretum Association is a non-profit organization that was established in 1987 to promote the preservation and enjoyment of the college landscape. The association was founded by a group of students and faculty members who were interested in the college’s landscaping and wanted to promote its appreciation. The association is supported by donations from individuals and organizations, and it raises funds through events and other activities. The association is currently led by a board of directors elected by the membership each year. The association is committed to the continued preservation and enjoyment of the college landscape, and it offers members the opportunity to get involved in the association’s activities and events. The association’s website is located at: www.haverfordcollegearboretum.org.
