

Expectations

Haverford College / Fall 2020

Updated August 7, 2020

Before Arriving at Haverford, I Will:

- Review all health and safety guidelines (that are part of this mailing) and commit to myself that I am prepared to follow them in good faith and without exception. Should I doubt my ability to maintain my own wellbeing and that of others by following these rules and guidelines, I will give serious thought to residing away from campus and studying remotely this semester.
- Complete my **Get Inclusive** online training by August 15, 2020
- Comply with the immunization requirements set by the Commonwealth of Pennsylvania and UPLOAD my health information forms to the [HAVERHEALTH portal](#).
 - Upload a negative COVID-19 test result 7-10 days prior to arrival.
- Check and confirm my Move-In date and time.
- Monitor my health for COVID-related symptoms for 14 days prior to arrival including cough, muscle aches, shortness of breath, fever over 100.3, chills, new loss of taste/smell.
- Update my SER (Student Entry Record) form in [BiONiC](#) and confirm that all phone number, address and emergency contact information is correct and up to date and check the box that allows me to use financial aid for health services.
- **If I am feeling ill or have any signs of illness, notify Res Life and Health Services that I must delay my plans to arrive on campus. Health Services and Res Life will provide an updated expected arrival time based on symptom monitoring and related healthcare guidance.**

While On Campus, I Will:

- Participate in Haverford College's Mandatory Health Assessment and Testing Program which includes:
- Daily self-monitoring and symptom checks
 - Being tested for the virus that causes COVID-19 as scheduled on the day of arrival and following the instructions of College personnel concerning any required quarantine or isolation.
 - Participating in periodic testing and monitoring as required by the College.
 - Cooperating with contact tracing inquiries within 24 hours by responding to texts and calls from contact tracers and answering all questions honestly and completely.
 - Complying with any request to isolate or quarantine made by the College and be available daily for a clinician to check on my health status via secure email, phone, or both.
 - Monitoring my health daily and only participating in classes, events, or meetings remotely if I'm not feeling well.

- Contacting Haverford Health Services immediately to seek an evaluation or arrange for testing when I experience symptoms that suggest COVID-19.
- Wear face covering (masks) in all campus facilities, including workplaces, classrooms, dining halls (except while eating), fitness center (opening will be dependent on safety criteria and metrics), restrooms (except when I am in the shower or brushing my teeth), dorms (except when I am alone in my assigned room) and on College grounds.
- Have a face covering (and back-up if possible) on my possession at all times.
- Physically distance, maintaining at least six feet/two meters separation between myself and others in all College facilities.
- Observe all guidelines for dining (grab-and-go, outdoor dining, or eating at assigned appropriately distanced seating).
- Not host any visitors to campus, including family members, romantic partners, or any students who are not currently part of the BiCo community and permitted to be on campus this fall. I will host no more than one BiCo guest at a time in my residential space, per the [Campus Access and Guest Policy](#).
- Understand that the College has carefully measured campus spaces to determine the socially distancing capacity of classrooms, the Dining Center, and other large gathering spaces. Students will not hold any events that exceed a space's maximum capacity.
- If I am a member of a student organization, I will abide by the guidelines being released by the Student Engagement Office. Those guidelines will include policies around gathering.
- Receive a flu vaccine when Haverford Health Services makes them available on campus or submit a record proving receipt of flu vaccine to Haverford Health Services via the HaverHealth portal.
- Adhere to other health and safety practices recommended or required by the College, including frequent hand-washing, distancing within classrooms and other rooms and residence hallways, and staggered bathroom use.
- Remain in the Haverford College area as much as possible and, if traveling (only under extraordinary circumstances), comply with all College travel guidance and state of Pennsylvania travel restrictions, including:
 - Strictly limiting personal travel for leisure or recreation (for example, visiting friends/family, sightseeing, trips to Philadelphia) beyond Haverford, per the [Travel Policy](#).
 - Consulting with Haverford Health Services about possible quarantine or testing requirements on my return from travel.
- Seek reasonable accommodations from the Access and Disability Services (ADS) Office. If I am unable to follow the College's expectations due to a documented disability. If my requested accommodation cannot be approved by ADS due to the safety of the Haverford community, I will follow the College's expectations or **I will reside and study remotely**. For questions, please reach out to hc-ads@haverford.edu

While Living Off Campus near Haverford or Commuting, I Will

- Comply with all the health and safety requirements of Haverford College including post-arrival COVID testing, ongoing COVID testing and screening, and obtaining a flu vaccine.

- Comply with all on-campus health and safety protocols to include social distancing, mask wearing, frequent hand washing, keeping a contact journal and daily symptom checking.
- Whether an on-campus or off-campus resident, I will not engage in risky behavior known to greatly increase my exposure and that of the community to COVID-19. **These include, but are not limited to:**
 - Going to bars
 - Going to indoor restaurants or other dining facilities
 - Attending house parties or large gatherings (Such gatherings are prohibited by PA guidelines)
 - Throwing house parties with large numbers of guests (Violations of this sort may result in students being visited by local authorities)
 - Taking off my mask for any reason other than eating, teeth brushing/showering or sleeping.
 - Going to gyms and fitness centers

While Residing and Studying Remotely from Campus, I Will:

- Not visit any Haverford College facility.
- Monitor my health for COVID-related symptoms and seek appropriate evaluation and care if needed.
- Receive a flu vaccine.
