

BiCo Continuity Planning Group: Charge and Principles
AY 2022-23

Bryn Mawr and Haverford Colleges are committed to making a joint decision around the academic plan for AY '23.

Planning Group Charge: Provide leadership to Bi-College presidential decision-making regarding the academic plan for AY '23.

- Bring leading ideas from individual campus discussions.
- Think through the implications, opportunities, and challenges of our options.
- Share information back to the campuses to ensure that both campuses are moving in a common direction.
- Enlist outside expertise as needed to inform decision-making --- this could be expertise within our campuses or beyond.

Guiding Principles of Decision Making:

- Protect the health and safety of our students, faculty, and staff.
- Provide the best possible educational experience for our students.
- Contribute to the larger purpose of protecting public health.
- Be mindful of equity and inclusion when considering options.
- Consider both the short- and long-term health of our institutions for all decisions and opportunities.
