2017	2018	349	338	97%
2018	2019	363	353	96%

*The number of students returning for the sophomore year includes students enrolled in approved Study Away and International Study programs, plus students on Dean's Leave (an approved leave for students in good academic standing with a stipulated re-enrollment date). Transferring students and those asked to take College Leave for academic or disciplinary reasons (where readmission to the College is necessary for re-enrollment) are treated as first-year attrition.
