

Institutional Effectiveness Committee Charge

Approved by Wendy Raymond, 6-10-2021

Updated for Title 10-18-2022

Reporting directly to the President, the Institutional Effectiveness Committee (IEC) is chaired by the Associate Provost for Curricular Development and Research. The co-vice-chairs are the Chief of Staff and the Senior Advisor for Institutional Effectiveness. Institutional representation is reflective of the year's agenda, and appointments are made annually based on project working groups. The function of the IEC is to take an institutional view of assessment processes at the College and to support institutional improvement. The IEC oversees the systems of assessment for student learning and institutional effectiveness, and forwards cross-functional initiatives to help the College meet its near- and long-term institutional goals, as articulated by the President and Senior Staff. The committee functions as a visible structure for the summary, documentation, and communication of assessment efforts at the College.
