Italics = estimated computation

* Does not include students participating in Study Away programs.

** Many institutions include faculty on leaves supported by the operating budget in calculating their student/faculty ratios, as reflected in the Instructional Student/Faculty Ratio through 1994-95. Beginning in 1995-96, this ratio includes faculty on Paid Release (e.g. for course development) who also are supported by the operating budget.

*** From 1996-97 forward, the FTE Teaching Faculty computation reflects a revised methodology which more fully recognizes differential teaching loads between tenure track faculty and other faculty.

Sources: Opening Fall Enrollment data provided by the Registrar.

Financial Full-time Equivalent Students data provided by the Budget Director; calculated by dividing the gross tuition dollars received annually from on-campus students by the annual tuition charge.

Full-time Equivalent Faculty data provided by the Provost.
