IITS Staff Directory

IITS General Services
- Use Eduroam network for Wireless
- Network Printers
- HP Copiers
- VPN
- Check the IITS Service Catalog page for other services.

- **Do you want to: post documents, email your students, set up assignments & discussion forms? Use Moodle.**
  - Go to moodle.haverford.edu and type your email username & password.
  - Make your course visible to your students before the semester starts.

- **Do you want to use technology in your classroom?**
  - All classrooms have a computer and projection system. Check the Classroom Technology page for specific technology in your classroom.

- **Do you want to wirelessly project your device in the classroom?**
  - You can use AirServer for Apple devices (iPads, iPhones, and Mac laptops) in all classrooms.
  - You can use Mersive Solstice Pod in Sharpless and Stokes Auditoriums by downloading Solstice Client Apps to your own device.

- **Do you want to use clickers (Student Response System) for formative assessments? We have clickers!**
  - Check out the T.I.P. (Technology, Innovation, and Pedagogy) video on clickers by Prof. Alex Norquist.
  - IITS has approximately 200 clickers for you and your students to use for free. Contact us soon if you want to use them.
Do you want to record your lectures and events for your students to review later? Use Panopto.

- Check the Panopto page to get started with Panopto.
- Feedback from our students on Panopto (part of the T.I.P. video series)

Do you want to narrate PowerPoint presentations or have your students create multimedia presentations? Use VoiceThread.

- VoiceThread is a digital storytelling program that you and your students can use in Moodle. Your students can use it for individual or group projects. You can use it to flip your classroom. Check out the T.I.P. video on flipped classroom by Prof. Casey Londergan.
- Check out the T.I.P video on VoiceThread by Prof. Lindsay Reckson.

Do you want to use media equipment or get help on digital media projects? Come to the ITC (Instructional Technology Center) in Stokes 205.

- You and your students can check out multimedia equipment and get help on multimedia projects.
- Check out the T.I.P. video on media projects by Prof. Erin Schoneveld.

Do you want your students to work on documents collaboratively? Use Google Drive in Google Apps for Education.

- You can use your Haverford account for Gmail, Calendar, Sites, Drives, Hangouts, and other Google Apps.
- Check the Google App page for more information.

Do you want your students to learn specific software programs for projects? Use Lynda.com (Online Education Portal).

- Lynda.com offers online courses on various topics including programming languages, digital media programs, and presentation skills.
- Go to haverford.edu/lynda and type your email username and password.

Do you want to do a survey?

- You can use Qualtrics online survey program at haverford.qualtrics.com
- You can also use Moodle (Turn editing on> Add an activity...> Questionnaire) for your classes.

Do you have questions or ideas about using technology in your teaching?

- We work with you to integrate technology into teaching to increase students’ engagement. Please contact our Instructional Technology Services team by emailing hc-techlearn@haverford.edu. We look forward to working with you.
