

Summer Internships & Experiences (updated)

What is Together with Humanities?

[Together with Humanities: Language, Community and Power](#) (TwH) is a Mellon-funded grant at Haverford that supports a series of co-taught courses and course clusters attuned to issues of languages and power. Through community-based learning, this initiative brings students, faculty, staff, and community members together to engage more deeply with language(s), linguistics, and the intersection with power across disciplines—both within and outside of the traditional humanities.

Summer Internships and Experiences

In Summer 2025, TwH will support **four summer internships/experiences that connect with co-taught courses or course clusters funded by Together with Humanities**. These experiences and internships allow you to further your exploration of course topics beyond what is possible during the academic year:

- Pursue an internship with an organization that you collaborated with during the course, such as the [Ticha Project](#), [Lagim Tehi Tuma](#), [Voice of Witness](#), or [New Sanctuary Movement](#).
- Take an intensive summer class in the language you studied during the course (e.g. American Sign Language, Persian).
- Act as a research assistant and collaborate with faculty to develop a new course for TwH, or revise an existing course to be taught differently in the future.
- Design your own experience that expands upon relationships or topics that you explored during the course, with input from your instructor(s).

Eligibility

- Tri-Co students who have taken (or will take) a Together with Humanities course at Haverford College are eligible to apply.
