

Machine Access For Student Visitors

			
Green Access: Can be used by all visiting students	Blue Access: Can be used by visiting students after train- ing.	Yellow Access: Can only be operated by trained student workers and technician.	Red Access: Can only be operated by Maker Arts Space Tech- nician

Each machine in the Maker Arts Space has a different type of access. This is because some machines require special knowledge to operate safely. Below is a list of main equipment items in the maker space and their access level.

That said, even if a machine has green access and you have never used it before (hammer for example) please ask for assistance.
